Education

Stony Brook University

May 2019

Bachelor of Science in Computer Science

- University Scholars Program, Dean's List, Presidential Scholarship Recipient
- 3.94 GPA

Experience

Software Engineer Intern

Jun. 2018 - Aug. 2018

Millennium Management LLC

- Created custom web applications using HTML, CSS, JavaScript, and the Tableau Extensions API to allow for two-way communication in Tableau Dashboard for the first time
- Provided users the ability to extend contracts in Tableau Desktop and Tableau Server by using the ASP.NET Core MVC framework to create an extension for sending SOAP requests to Oracle Applications Cloud
- Designed and made a web page for Millennium's intranet detailing the services and products available for employees to use depending on their use case

Technology Intern

Jun. 2017 - Aug. 2017

Soft System Solution

- Created multiple webpages intended for clients to use as backend user interfaces for managing their websites and apps
- Used Kanban agile framework to design and write the content for restaurant websites to help attract a larger customer base and increase orders through an online ordering platform
- Created automated test suites using Selenium IDE to check if customer websites were functioning properly

Leadership

Treasurer of Student Organization

May 2017 - Present

3Diatrics

- Helped found 3Diatrics, a club about 3D printing toys for children at Stony Brook Children's Hospital and teaching them about 3D printers, and involved with raising funds for the club

Skills

- Java, C, HTML, CSS, JavaScript
- Git, Agile/Kanban

Honors & Awards

- New York City Science and Engineering Fair Second Place
- Golden Key Honor Society
